

COMMUNITY GARDEN PROJECT

The Town of Badger is currently in the process of developing a Community Garden Center. The Town will be developing a total of twenty planter boxes which will be located adjacent to the Badger Community Center. Residents who wish to participate in this project will be given the opportunity to rent a planter box and will then be responsible for caring for their own garden from planting to harvesting. Soil for the planting boxes will be provided.

The cost of renting a planter box will be \$20.00 per planter.

If you are interested in renting a planter box in the Community Garden please contact the Town Office at 709-539-2406

THANK YOU

Badger Town Council
